

LIST OF ALL PROPOSED ACTIONS

A. Preparatory actions, elaboration of management plans and/or of action plans

- A.1. Preparation of the administrative basis of the project
- A.2. Kick-off meeting and training of project partners about common provisions and project management
- A.3. Initial wolf monitoring and feeding ecology analysis in the project area
- A.4. Preparatory actions for increasing wild prey availability for wolves
- A.5. Creation of a management plan for wolf prey species south of the Douro River
- A.6. Preparatory actions for the implementation of damage preventive measures
- A.7. Human dimension study on attitudes and impact
- A.8. Business opportunity identification and planning
- A.9. Mapping and databasing socio-ecological barriers to inform decision making of project actions

C. Conservation actions

- C.1. Setting-up a veterinary force trained in the use of damage preventive measures
- C.2. Implementation of damage preventive measures
- C.3. Setting- up specific teams to protect wolf habitat and to help local stakeholders in the conflicts with wolf
- C.4. Increasing wild prey availability for wolves

D. Monitoring of the impact of the project actions

- D.1. Wolf activity monitoring and feeding ecology analysis post implementation of conservation actions
- D.2. Monitoring the success of the release of wild ungulates and their situation at the end of the project
- D.3. Monitoring the success of damage preventive measures
- D.4. Monitoring the socio-economic impact of the project
- D.5. Assessment of the project impact on ecosystem functions

E. Public awareness and dissemination of results

- E.1. Photographic, video and other material to document and disseminate the conservation actions carried out under the project
- E.2. Production of a project website and information materials to promote the species conservation among targeted audiences and the general public
- E.3. Awareness programme for local stakeholders
- E.4. Children and youth awareness programme of extra-curricular activities related to wolf conservation
- E.5. Promoting local products resulting from activities that support wolf conservation
- E.6. Promoting a responsible wolf related tourism in the project area
- E.7. Organization of round table seminars with authorities and wolf experts and networking with other LIFE and non-LIFE Projects
- E.8. Installation of project information panels in the area of activities and production of a Layman's report
- E.9. Positive News on Local, Regional and National Media
- E.10. Participation in scientific meetings
- E.11. Implementation of a replicability plan for mobile teams of surveillance and LGD network

F. Project management

- F.1. General project structure and management
- F.2. Monitoring of the project progress (Executive Commission)
- F.3. After-Life conservation plan
- F.4. Final audit
- F.5. Compilation and analyses of performance indicators
